

Biotech Clinical Laboratories Technical Bulletin

6/3/24

Effective June 4th 2024, we will reduce our specimen storage time from 7 days to 5 days. This is due to the implementation of our new state-of-the-art automation line from Beckman Coulter. This change means we can no longer accept add-on testing requests beyond 5 days.

For additional information or questions about this change please contact Karim Khalifeh at 248-912-1700 or karim@biotechclinical.com

Thank you,

Karim Khalifeh
